City of Rochester and Monroe County FY 2015-16 Emergency Solutions Grants (ESG) Program

Part 1. Introduction and Background

The City of Rochester, hereinafter referred to as the “City,” and Monroe County (hereinafter the “County”), seek proposals from qualified not-for-profit providers to participate in a comprehensive community service delivery program intended to ameliorate homelessness.

This request for proposals for the FY 2015-16 ESG program year is based upon advance joint planning by the City, the County and the Rochester/Monroe County Continuum of Care (CoC). The 2015-16 Emergency Solutions Grants Program (hereinafter ESG) is envisioned to strengthen and expand the current array and availability of services and programs for individuals and families who are homeless or at risk of homelessness in the greater Rochester community.

Background

Federal HEARTH ACT: In 2009, significant changes were made to federally-funded homeless programs, including ESG, with the passage of the Homeless Emergency Assistance and Rapid Transition to Housing (HEARTH) Act. The HEARTH Act is the first significant reauthorization of the McKinney-Vento Homeless Assistance Programs since 1992. In 2012, the administering federal agency, the U.S. Department of Housing and Urban Development (HUD) released its new policies and regulations pursuant to the HEARTH Act. Together, these policy developments reflect a national shift from a historical emphasis on providing emergency shelter to a focus on homelessness prevention and rapid re-housing, broaden existing emergency shelter and homelessness prevention activities. These new policies emphasize rapid re-housing to help people quickly regain stability in permanent housing after experiencing a housing crisis, support a coordinated access and intake, and call for an effective data collection, performance measurement, and program evaluation system.

As excerpted from the Homelessness Resolution Strategy Report authorized by the City, entitled *Homelessness Resolution Strategy in Rochester and Monroe County*, author Suzanne Wagner summarizes the evolution of policy response to the problem of homelessness:

During the past decade, homeless systems across America have been radically transforming the way they deliver services--moving from managing to ending homelessness (emphasis added). Communities have embraced new approaches such as Housing First and Rapid Re-Housing which have proven to quickly end people's homelessness permanently, while conserving public funds in the process. Research has documented the effectiveness and efficiency of these interventions and the evidence continues to build. Traditional approaches to the issue such as endless engagement by street outreach workers and assisting people to become “housing ready” have been abandoned. We have learned that the most effective approaches move people out of the crisis of homelessness as rapidly as possible and provide services and supports in their homes to help them achieve housing stability.

Additionally, the body of research supporting social services practice interventions that enhance and amplify these housing approaches such as Critical Time Intervention, Stages of Change and Supported Employment has been growing.

Finally, the Federal Strategic Plan to End Homelessness, Opening Doors and the HEARTH (Homeless Emergency Assistance and Rapid Transition to Housing) Act (which re-authorizes McKinney Vento funding from HUD) have created new goals and outcomes for communities to use to measure their progress in solving homelessness.

HUD will evaluate communities (and distribute funding) based on their success at reducing the numbers of homeless people, reducing the length of time people spend in the crisis of homelessness and success at increasing incomes and exits from homeless systems to permanent housing.

Report Recommendations

Wagner continues with recommendations for best practices, which have been accepted by the City and County as well as the homeless services provider network at large. She notes:

Rochester and Monroe County have embraced these new housing approaches and practice strategies, creating Housing First Permanent Supportive Housing and Rapid Re-Housing responses. The recommendations to follow seek to build on the progressive approach the community has been engaged in.

Recommendations for Best Practices

1. Continue to implement diversion as the first response to a housing crisis and use the Shinn-Greer Tool to prioritize services
2. Adopt a rapid exit/housing first approach for the entire system
3. Increase Rapid Re-Housing
4. Use Progressive Engagement in Providing Services
5. Implement a Housing Stabilization Case Management Approach using Critical Time Intervention (CTI)
6. Improve practice and capacity in Permanent Supportive Housing (PSH)
7. Implement data driven decision-making and evaluation through measurement of outcomes
8. Ensure Leadership and Accountability for (this) plan

LOCAL SERVICE PROVIDER NETWORK DEVELOPMENT

Starting in 2013, the City and County enjoined the community to adopt Coordinated Access as our new way of doing business. The challenge is to direct resources in new, innovative ways, and allows for investment in a Continuum of Care (CoC) infrastructure. Coordinated Access is envisioned to overcome barriers that individual programs cannot address as it will allow communication, coordination, and collaboration to be brought to scale on a community-wide level. Outcome goals of Coordinated Access include, but are not limited to: diverting entry into shelter by finding alternative housing or sustaining existing housing, decreasing the average length of a homeless episode, strategically and efficiently aligning scarce community resources, and bridging agency and program boundaries.

In 2013, homeless service representatives, acting on behalf of the larger group of homeless/homelessness service providing organizations in Rochester and Monroe County, convened an ad-hoc Coordinated Access Task Force and presented a report to the CoC in December, 2013 on the design and implementation strategy to address how to prevent and end homelessness in our community. This recommendation report included a suggested common assessment tool featuring diversion techniques, intake procedures, and the recommendation to start the movement to Coordinated Access with a pilot project. The CoC formally accepted the report and adopted the recommendations in January, 2014.

For the FY 2014-15 ESG program, the City and County issued a request for proposals for an entity to implement the recommendations, and funded a collaborative program proposed by CCSI, Goodwill of the Finger Lakes/2-1-1 LIFE LINE and Catholic Family Services, which began in earnest in November, 2014.

Part 2. ESG Program Description

ESG offers funding assistance to public and non-profit organizations that are responding to the needs of homeless populations through a comprehensive community-wide planning process and implementation strategy, as articulated in this community's Ten Year Plan to End Homelessness, *Housing Options for All* (2007). Fundamental principles and strategies that will guide ESG program development and proposal selection are listed below.

Fundamental Principles and Strategies

Guiding ESG Program Development and Proposal Selection

1. Collaboration within the homeless services community to assist the hardest to serve. Breaking down silos, or barriers, to collaboration and coordination across the service community to ensure that local, state, and federal resources are used effectively and efficiently to end homelessness
2. Ensuring emergency housing needs are met
3. Use of shelter beds and transitional housing only when necessary--with a Housing First approach
4. Re-alignment of programs--working as a community to re-align program dollars to keep people housed or to rapidly re-house them
5. Adoption of proven tools to prevent and end homelessness--use of a comprehensive community-based prevention and rapid re-housing system that embraces Progressive Engagement and Housing First philosophies. Promotion of program models with successful measurable outcomes that are supported by data
6. Uniform data collection, analysis, and reporting--Collection and analysis of data via the Homeless Management Information System (HMIS). (Please note: Providers of services to victims of domestic violence and other special needs populations are exempt from HMIS participation)
7. Building of public support and political will for ending homelessness--sharing data and best practices with mayors, county officials, schools, and other interested parties
8. Creating a communications plan--notification of key partners in the community, including mainstream service partners, government officials, consumers, and the general public about how coordinated access works (via social media, brochures, and informational meetings, for example), and
9. Continuous quality improvement.

Part 3. FY 2015-16 ESG Program Goals and Objectives

ESG funds are intended to be used to meet the goal of alleviating or preventing homelessness. ESG service objectives must be designed to comply with and carry out the goals and initiatives of the City and the County. For further articulation of homelessness resolution goals, see the City of Rochester Housing Policy (Attachment D), which includes coordinating tenant services that reduce unwanted transiency and encourage accountability that will result in longer-term tenancies. HUD 24 CFR Part 576 provides more detail.

Adopted March 18, 2008

The City of Rochester will engage stakeholders and foster public/private partnerships to improve neighborhoods, create healthy real estate markets, stabilize and enhance the tax base, and provide a broad array of housing options to address the needs of diverse households. To accomplish the goals of this Housing Policy, the City shall:

1. Promote rehabilitation, redevelopment and new construction of housing through:
 - A. Maintenance, rehabilitation and/or historic preservation to enhance the well-built and diverse housing stock, which offers a variety of different products than are available throughout much of the region.
 - B. Redevelopment of residential, non-residential and mixed use structures to address market demand for currently underrepresented housing types in the existing housing inventory and/or provide for the preservation of historic structures.
 - C. Request for Proposals Emergency Solutions Grants Program**

Reporting Requirements: Detail

Client Data - HMIS Homeless Management Information System

Unless prohibited by regulations for services to Special Needs Participants (ex: victims of domestic violence), the Subrecipient will continue (or implement) Participant data entry in HMIS. HMIS is the common data base provided and required by HUD and administered by Rochester Housing Authority (RHA/HMIS). Reimbursement for services under ESG will be dependent upon completing/updating HMIS for each Participant, for each service. The Subrecipient will be responsible for completion and accuracy. This is critical to the City and County commitment to quality of service and collaboration with the CoC.

Coordinated Access and Assessment

Participant data coordination and sharing: The Subrecipient will enter into a Memorandum of Understanding with the RHA/HMIS as the basic requirement for Coordinated Access. Upon consultation with RHA/HMIS the Subrecipient will implement Participant release documentation (unless prohibited by regulations for services to Special Needs Participants ex: victims of domestic violence) for the purpose of establishing coordinated entry and easing Participants' interviews when more than one provider is enlisted for case work.

- A. **Licenses** - Unless otherwise advised by the CoC and RHA/HMIS, the Subrecipient that does not already have license(s) through other Federal funding (ex: Shelter + Care) will be responsible for purchasing licenses for each user.
- B. **Technical Assistance** will be provided by the RHA/HMIS in cooperation with the CoC. HMIS training and response to requests for Technical Assistance are continually available from the RHA/HMIS Technical Assistance staff. The Subrecipient is responsible for:
 1. Identifying qualified data entry staff to the Technical Assistance provider. The Subrecipient will identify an HMIS Administrator, who shall be responsible for quality and accuracy checks, and policy and practices planning. The Subrecipient may assign HMIS data entry responsibility either to direct service staff or to staff who are specifically responsible for all HMIS data entry. The Subrecipient's designation of HMIS responsibilities will depend upon factors including availability of licenses, staff assignments and capacity.
 2. Participating in and identifying need for Technical Assistance:
 - at time of staff change
 - at time of need to reassign or add license(s)
 - when difficulties with entry are encountered
 - when notified of system changes and
 - when instructed by the City.

3. Entering Participant data on a timely basis, no less than once a month.
4. Informing the ESG administrators in the event that there are problems with the HMIS system in spite of work with the Technical Assistance provider or when Technical Assistance is not provided.

C. HMIS Entry And Accuracy

Report Card - The Subrecipient will attain an HMIS “Report Card” grade of B or better – indicating completion of all HUD Required data fields. In the event that a “Report Card” grade of less than B occurs, and is below grade B for two (2) months, and the Subrecipient has not been active in resolving problems in completing HMIS, the City reserves the right to withhold payment. The City may withhold payment until grade B is reestablished. The Subrecipient is responsible for scheduling Technical Assistance and training to reestablish a “Report Card” grade B.

No less than once a month the Subrecipient will review HMIS data for accuracy. It is not sufficient to rely upon the RHA/HMIS Report Card report as sole indicator of accuracy.

Periodic Reports

On form(s) supplied, the Subrecipient will submit a periodic report. This will be submitted no less than upon submission of invoices.

Consolidated Annual Performance Report (CAPER)

The recipient agrees to submit all data that are necessary for monitoring program accountability and progress in accordance with HUD requirements and for completing the ESG portion of the annual CAPER. This shall be provided in a format and at the time instructed by the Authorized Agent or their designee.

Outcomes Review

The ESG administrators and the CoC may conduct periodic review of outcomes, or request reports on outcomes.

Participants will meet qualifications as homeless as defined in §576.2 Definitions.

The Subrecipient shall comply with *Program Section §576.102 (b) Prohibition against involuntary family separation*, “the age, of a child under age 18 must not be used as a basis for denying any family’s admission to an

The City's agent is authorized to request in writing such additional services within the maximum authorized compensation as the Agent deems necessary.

ART. I, PART 7. McKINNEY ACT ANTI-DRUG PROVISION

In accordance with the McKinney Act regulations, the Subrecipient hereby gives its assurance that it will administer, in good faith, a policy designed to ensure that the homeless facility is free from the illegal use, possession, or distribution of drugs or alcohol by its beneficiaries. This provision is not to be used to deny McKinney homeless assistance to any Subrecipient or project sponsor acting in good faith, nor does it allow shelter operators to deny assistance to individuals suspected of drug or alcohol abuse. Rather, the intent of the provision is to ensure that actions are undertaken in good faith to provide a safe environment within homeless shelters.

ART. I, PART 8. STATUTORY USE REQUIREMENT

The Subrecipient hereby agrees to maintain as a homeless shelter any building for which ESG assistance was used for rehabilitation or conversion for a specified period of time. As provided under federal law at 42USC 11375 (c) (1), the time period is ten (10) years for major rehabilitation or conversion, and three (3) years for other rehabilitation. In the case of the provision of essential services or operational expenses, the Subrecipient must

carry out the assisted activities for the period during which ESG assistance is provided, however the services may be provided at another location, as long as the same general population is served.

ART. I, PART 9. FAITH-BASED ACTIVITIES

Organizations that are directly funded under the Emergency Solutions Grant program may not engage in inherently religious activities, such as worship, religious instruction, or proselytization as part of the programs or services funded under this agreement. If an organization conducts such activities, the activities must be offered separately, in time or location, from the programs or services funded under this agreement, and participation must be voluntary for the beneficiaries of the HUD-funded programs or services.

A religious organization that participates in the Emergency Solutions Grant program will retain its independence from Federal, State, and local governments, and may continue to carry out its mission, including the definition, practice, and expression of its religious beliefs, provided that it does not use direct Emergency Solution Grant funds to support any inherently religious activities, such as worship, religious instruction, or proselytization. Among other things, faith-based organizations may use space in their facilities to provide Emergency Shelter Grants-funded services, without removing religious art, icons, scriptures, or other religious symbols. In addition, an Emergency Solutions Grants funded religious organization retains its authority over its internal governance, and it may retain religious terms in its organization's name, select its board members on a religious basis, and include religious references in its organization's mission statements and other governing documents.

An organization that participates in the Emergency Solutions Grant program shall not, in providing program assistance, discriminate against a program beneficiary or prospective program beneficiary on the basis of religion or religious belief.

If the City voluntarily contributes its own funds to supplement federally funded activities, the City government has the option to segregate the Federal funds or commingle them. However, if the funds are commingled, this section applies to all of the commingled funds.

ART. II, Part 1. QUALIFICATIONS, INDEMNITY AND INSURANCE

Section 2.101 Subrecipient's Qualifications for Duties, Compliance and Permits

A. The Subrecipient hereby agrees that all appropriate professional personnel necessary to completely and accurately perform the work and services under this Agreement will be retained during the term of this contract.

B. The Subrecipient further agrees that all sub-contractors, agents or employees shall possess the experience, knowledge and character necessary to qualify them individually for the particular duties they perform.

Section 2.102 Subrecipient's Liability

The Subrecipient hereby agrees to defend, indemnify and save harmless the City of Rochester against any and all liability, loss, damage, detriment, suit, claim, demand, cost, charge, attorney's fees and expenses of whatever kind or nature which the City may directly or indirectly incur, suffer or be required to pay by reason or in consequence of the carrying out of any of the provisions or requirements of this contract, where such loss or expense is incurred directly or indirectly by the City, its employees or agents, as a result of the negligent act or omission, breach or fault of the Subrecipient, its agents, employees or Subrecipients. If a claim or action is made or brought against the City and for which the Subrecipient may be responsible hereunder in whole or in part, then he shall be notified and shall be required to handle or pay for the handling of the portion of the claim for which he is responsible as a result of this section.

Section 2.103 General Liability Insurance

The Subrecipient shall obtain at his own expense general liability insurance in the amount of at least One Million Dollars for protection against claims of personal injury, including death, or damage to property, arising out of the Project. Said insurance shall be issued by a reputable insurance company, authorized to do business in the State of New York. Said insurance shall also name the City of Rochester as an insured. The insurance shall stipulate that, in the event of cancellation or modification the insurer shall provide the City with at least ten (10)

days written notice of such cancellation or modification. In no event shall such liability insurance exclude from coverage any municipal operations or municipal property related to this agreement.

Section 2.104 Worker's Compensation and Disability Insurance Benefits

This Agreement shall be void and of no effect unless the Subrecipient shall require all the Subrecipient's Sub-Contractors to keep insured, during the life of this Agreement, all employees of said Subrecipient as are required to be insured under the provisions of the Workers' Compensation Law of the State of New York. In the event the Subrecipient hires its own employees to do any work called for by this Agreement, then the Subrecipient agrees to so insure its own employees. The Subrecipient shall provide proof to the City, duly subscribed by an insurance carrier, that such Workers' Compensation and Disability Benefits coverage has been secured. In the alternative, Subrecipient shall provide proof of self-insurance or shall establish that Workers' Compensation and/or Disability Benefits coverage is not required by submitting the then current and required New York State Workers' Compensation Board's form.

Section 2.105 Copyright or Patent Infringement

The Subrecipient shall defend actions or claims charging infringement of any copyright or patent by reason of the use of adoption of any designs, drawings or specifications supplied by him, and he shall hold harmless the City from loss or damage resulting therefrom, providing however, that the City within ten days after receipt of any notice of infringement or of summons in any action thereof shall have forwarded the same to the Subrecipient in writing.

Section 2.106 No Individual Liability

Nothing contained in the Agreement shall be construed as creating any personal liability on the part of any officer or agent of the City.

ART. II, PART 2. SPECIFIC DESIGN RESTRICTIONS

Section 2.201 Handicapped Access Not Applicable

The parties agree that the Project will not involve the substantial renovation, relocation, or reconstruction of a building open to the public. Therefore, this agreement will not require the application of ANSI a.117.1 - R1980 "American Standard Specifications for Making Buildings and Facilities Accessible to, and Usable by the Physically Handicapped."

Section 2.202 Environmental Policy

The City has an obligation to assess the environmental impact of the Project and to prepare any necessary state, federal, and/or local environmental impact statements under the State Environmental Quality Review Act and the National Environmental Protection Act. The City wishes to enhance the environment by minimizing environmental degradation and by maximizing the Project benefits.

The Subrecipient, therefore, shall assist the City in determining whether environmental impact statements ("EIS") should be prepared and shall assist the City or the City's environmental analyst in preparing any necessary EIS. The Subrecipient shall not be required to prepare an EIS, unless specifically required by Article I of this Agreement.

In accordance with the requirements of the Flood Disaster Protection Act of 1973 (24 U.S.C. 4001), the Subrecipient shall assure that for activities located in an area identified by the Federal Emergency Management Agency (FEMA) as having special flood hazards, flood insurance under the National Flood Insurance is obtained and maintained as a condition of financial assistance for acquisition or construction purposes (including rehabilitation).

Lead-Based Paint: The ESG program deals primarily with the operation of short-term emergency shelters that can be defined as "zero-bedroom dwellings" according to the Lead-Based Paint Hazard regulations at 24 CFR Part 35. Most emergency shelters are exempt from the regulations, such as studio apartments, dormitories, SRO units, barracks and group homes. Any emergency shelters built prior to 1978 need only comply with the following simplified lead requirements:

1. Provide the Lead Hazard Information Pamphlet available through HUD;
2. Do a visual assessment of painted surfaces to identify deterioration;
3. Complete paint stabilization by repainting deteriorating surfaces;
4. Incorporate ongoing LBP maintenance.

Housing that is not exempted by the definitions above, or housing where children under the age of 6 reside frequently, is subject to all lead-based paint regulations.

Homeless Prevention services are subject to lead regulations because the units assisted with these funds are not temporary residences and do not fall under the shelter exemption. Assistance for first month's rent cannot be provided for housing units that are not known to be free of lead-based paint contamination.

ART. II, PART 3. EMPLOYMENT PRACTICES

Section 2.301 Equal Employment Opportunity

A. General Policy

The City of Rochester, New York reaffirms its policy of Equal Opportunity and its commitment to require all Subrecipients, lessors, vendors and suppliers doing business with the City to follow a policy of Equal Opportunity, in accordance with the requirements set forth herein. The City further does not discriminate on the basis of disability, in admission or access to, or treatment or employment in its programs and activities. The City is including these policy statements in all bid documents, contracts, and leases. Subrecipients, lessors, vendors and suppliers shall comply with all State and Federal Equal Opportunity laws and regulations and shall submit documentation regarding Equal Opportunity upon the City's request.

B. Definitions

GOOD FAITH EFFORT shall mean every reasonable attempt to comply with the provisions of this policy by making every reasonable effort to achieve a level of employment of minority groups and female workers that is consistent with their presence in the local work force.

MINORITY GROUP PERSONS shall mean a person of Black, Spanish surname American, Asian American or American Indian ethnic or racial origin and identity.

C. Compliance

The Subrecipient shall comply with all of the following provisions of this Equal Opportunity Requirement:

1. The Subrecipient shall not discriminate on the basis of age, race, creed, color, national origin, sex, sexual orientation, disability or marital status in the performance of services or programs pursuant to this agreement. The Subrecipient agrees to make a good faith effort to employ minority group persons and females and that in hiring employees and treating employees performing work under this Agreement or any subcontract hereunder, the Subrecipient, and its Subrecipients, if any, shall not, by reason of age, race, creed, color, national origin, sex, sexual orientation, disability or marital status, discriminate against any person who is qualified and available to perform the work to which the employment relates. The Subrecipient agrees to take affirmative action to ensure that applicants are employed and that employees are treated during their employment, without regard to their race, color, religion, sex, age or national origin. Such actions shall include, but not be limited to the following: employment, upgrading, demotions or transfers, recruitment and recruitment advertising, layoffs, terminations, rates of pay and other forms of compensation, and selection for training, including apprenticeship. The Subrecipient agrees to post notices in conspicuous places available to employees and applicants for employment, and to include language in all solicitations or

advertisements for employment placed by or on behalf of the Subrecipient, reflecting this non-discrimination policy.

2. Section 2.711 Severability

If any provision of this Agreement is held invalid by a court of law, the remainder of this Agreement shall not be affected thereby, if such remainder would then continue to conform to the laws of the State of New York.
